

Good day,

Please show us images and explain step by step how we should solve the problem.

When starting the project from the Flutter section, the app starts but does not finish consuming the APIs

When verifying the app and the API, they agree with the documentation

When I start the app it generates this in the console

Launching lib/main.dart on AOSP TV on x86 in debug mode...

✓ Built build/app/outputs/flutter-apk/app-debug.apk.
